Comment différencier rapidement les connecteurs RSC ?
How to differentiate quickly the RSC connectors?
Wie unterscheiden sich die verschiedenen RSC-Stecker ?

Un connecteur RSC 16 voies présente 4 pins centraux alors qu'un connecteur RSC 15 voies en présente 3 (voir schéma ci-contre).

A 16 pins RSC connector has 4 central pins while a 15 pins connector has 3 (see opposite draw).

Ein 16-poliger RSC-Stecker hat 4 zentrale Kontaktstifte, ein 15-poliger RSC-Stecker nur 3
(siehe nebenstehende Skizze).

MISE EN GARDE SUR LES RISQUES JURIDIQUES DE LA CONTREFACON
WARNING ON LEGAL RISKS OF ORIGINAL PARTS COPIES / FORGERY
HINWEIS AUF DIE RECHTLICHEN RISIKEN BEI FER VERWENDUNG

MISE EN GARDE SUR LES RISQUES JURIDIQUES DE LA CONTREFACON DES PIECES D'ORIGINE

Les **remplacements** ou **modifications** de composants autres que ceux montés et recommandés par le constructeur peuvent remettre en cause la sécurité des usagers de la route (diminution des performances photométriques).

Ex : **Le montage d'un cabochon adaptable sur un feu d'origine Vignal est interdit.**

Toute opération de ce type sur le matériel sera **à la charge entière de celui qui sera intervenu** et pourra **remettre en cause** l'homologation du véhicule délivrée par les autorités compétentes.
Le fabricant dégage sa responsabilité réglementaire.

La contrefaçon et la concurrence déloyale de pièces sont condamnées par la loi civile et pénale :

- La contrefaçon engage la responsabilité civile et pénale du fabricant, du revendeur, voire dans certains cas de l'utilisateur des pièces de contrefaçon.
- La concurrence déloyale engage la responsabilité civile du fabricant et du revendeur de copies serviles; en tirant de cette opération un avantage injustifié, **il fausse les règles normales de la concurrence** et réalise de ce fait **un acte de parasitisme** en détournant le travail de recherche et de conception , ainisi que le savoir-faire des constructeurs.

WARNING ON LEGAL RISKS OF ORIGINAL PARTS COPIES / FORGERY

The **remplacements** or **modifications** of components other than those assembled and recommended by the manufacturer can reduce the safety of the road users (reduction in the photometric performances).

Ex : **The assembly of an adaptable lens on an original lamp Vignal is prohibited.**

Any operation of this type on the material **will be judged as responsibility of who intervened** and will **compromise the homologation of the vehicle** delivered by the authorities.
The manufacturer declines all responsibilities.

The forgery and the unfair competition of original parts are condemned by the civil and penal law :

- The forgery engages the civil and penal liability of the manufacturer and the retailer, even in certain cases of the user of the forgery parts.
- The unfair competition engages the civil liability of the manufacturer and the retailer of forged parts; by taking an unjustified advantage from this operation, the forgery **distorts the normal rules** of competition and carries out an **act of parasitism** by diverting the design and R&D task, as well as know-how of the manufacturers.

HINWEIS AUF DIE RECHTLICHEN RISIKEN BEI FER VERWENDUNG VON NACHBAUTEILEN ANSTELLE VON ORIGINALERSATZTEILEN

Der **Austauch** oder die **Modifikation** von Teilen, die nicht in der Erstausrüstung montiert und vom Hersteller empfohlen wurden, können die Sicherheit der Verkehrsteilnehmer beeinträchtigen (Verringerung der lichttechnischen Leistung).

Beispiel: **Die Verwendung einer nachgebauten Lichtscheibe auf einer VIGNAL-Heckleuchte ist nicht zulässig.**

Jede Verwendung dieses Materials wird **zu Lasten des Verwenders** ausgelegt und kann die **Zulassung des Fahrzeugs durch die Zulassungsstellen in Frage stellen.**
Der Fahrzeughersteller entzieht die gesetzliche Gewährleistungspflicht.

Die Fälschung (Nachbau) von Originalteilen und der unlautere Wettbewerb werden durch das Zivil-und Strafgesetz verurteilt:

- Die Fäschung (Nachbau) von Originalteilen zieht die zivil-und strafrechtliche Haftung des Herstellers, des Wiederverkäufers und in bestimmten Fällen auch des Benutzers nach sich.
- Der unlautere Wettbewerb zieht **die zivilrechtliche Haftung des Herstellers und des Wiederverkäufers von Nachbauteilen nach sich**; sie ziehen aus dieser Operation einen ungerechtfertigten Nutzen, und verfälschen die normalen Regeln des Wettbewerbs, indem sie die Forschungs-und Konzeptionsarbeit sowie das Know-How der Konstrukteure nutzten.

NORMES ET RÈGLEMENTATION
STANDARDS AND REGULATIONS
NORM UND REGLEMENTIERUNG

Les extraits de règlementation sont disponibles sur notre site web.

Les éléments sont extraits du règlement ECE R48 concernant la majorité des véhicules.
Se référer au règlement pour des configurations particulières.

Les produits doivent être homologués selon le dernier amendement en vigueur
L'utilisateur est responsable de la conformité de l'équipement de son véhicule.

VIGNAL s'engage sur la conformité de ses produits.

ADR Le sigle ADR signifie que le produit est homologué pour le montage sur des véhicules qui satisfont aux dispositions ADR (accord européen relatif au transport international des marchandises dangereuses par route).
Les produits ADR ont un indice de protection d'au moins IP54.
L'indice de protection IP détermine le degré de protection du matériel contre la pénétration des corps solides (1er chiffre) et des liquides (2ème chiffre).

Exemple : IP54
1er chiffre : 5 => Protégé contre les infiltrations de poussière
2ème chiffre : 4 => Protégé contre les projections d'eau (haute pression) de toutes les directions

The regulation extracts are available on our website.

The elements are extracts from the ECE R48 regulation which concern most of the vehicles.
Please refer to the regulation for any special configuration.

The products must be homologated according to the last amendments in force.
The user is responsible for the conformity of its vehicle's equipment.

VIGNAL is commited to the conformity of its products

ADR The ADR sign means the product is homologated on vehicles which are under ADR regulations (European Agreement concerning the International Carriage of Dangerous Goods by Road).
The ADR products have an ingress protection rating of at least IP54.
IP Code classifies and rates the degrees of protection provided against the intrusion of solid objects (1st number) and water (2d number)

Example : IP54
1st number : 5 => Protected against dust
2d number : 4 => Protected against splashing water from all directions

Auszüge aus der Reglementierung sind auf unserer Webseite ersichtlich.

Es handelt sich um die für die meisten Fahrzeuge zutreffenden Auszüge der Reglementierung ECE R48.
Für Sonderfälle sehen Sie bitte die komplette Reglementierung ein.

Die Produkte sind nach dem aktuellstem Änderungsstand zu homologieren.
Der Fahrzeugführer ist für die zulässige Ausrüstung seines Fahrzeuges verantwortlich.

VIGNAL garantiert die Konformität der Produkte.

ADR Das ADR Zeichen bedeutet, dass das Produkt für den Einbau in Fahrzeuge mit ADR Zulassung (Europäisches Übereinkommen über die internationale Beförderung gefährlicher Güter auf der Straße) geeignet ist. ADR-Produkte haben einen Schutzfaktor von mindestens IP54.
Der IP Schutzfaktor bestimmt den Schutzgrad eines Bauteils gegenüber das Eindringen von festen Körpern (erste Ziffer) und von Flüssigkeiten (zweite Ziffer).

Beispiel : IP 54
Erste Ziffer : 5 => Schutz gegen das eindringen von Staub
Zweite Ziffer : 4 => Schutz gegen Spritzwasse aus allen Richtungen

Indice de protection

Indice	1er chiffre (dizaine) = Protection contre la poussière	2ème chiffre (unité) = Protection contre l'eau
0	Aucune protection.	Aucune protection.
1	Protégé contre les corps solides supérieurs à 50 mm.	Protégé contre les chutes verticales de gouttes d'eau.
2	Protégé contre les corps solides supérieurs à 12,5 mm.	Protégé contre les chutes de gouttes d'eau jusqu'à 15° de la verticale.
3	Protégé contre les corps solides supérieurs à 2,5 mm.	Protégé contre l'eau en pluie jusqu'à 60° de la verticale.
4	Protégé contre les corps solides supérieurs à 1 mm.	Protégé contre les projections d'eau de toutes directions.
5	Protégé contre les poussières.	Protégé contre les jets d'eau de toutes directions à la lance.
6	Totalement protégé contre les poussières.	Protégé contre les forts jets d'eau de toutes directions à la lance.
7	-	Protégé contre les effets de l'immersion (jusqu'à 1m).
8	-	Matériel submersible dans des conditions spécifiées (immersion prolongée) au delà de 1 m et pendant 30 minutes.
9K	-	Protection contre le nettoyage à haute pression.

International Protection

Level	1st digit = Solid particles protection	2nd digit = Liquid ingress protection
0	Not protected.	Not protected.
1	Protected against solid objects superior to 50 mm.	Protected against vertical dripping.
2	Protected against solid objects superior to 12,5 mm.	Protected against dripping (inclined 15°).
3	Protected against solid objects superior to 2,5 mm.	Protected against spraying water.
4	Protected against solid objects superior to 1 mm.	Protected against splashing of water from any direction.
5	Dust protected.	Protected against water jets by a nozzle.
6	Dust tight.	Protected against powerful water jets by a nozzle.
7	-	Protected against immersion up to 1 m.
8	-	Submersible equipment under specified conditions beyond 1 m for 30 minutes.
9K	-	Protected against close-range high pressure.

Schutzart

Kennziffer	Erste Kennziffer = Schutz gegen Fremdkörper	Zweite Kennziffer = Bedeutung: Schutz gegen Wasser
0	kein Schutz.	kein Schutz.
1	Geschützt gegen feste Fremdkörper mit Durchmesser ab 50 mm.	Schutz gegen Tropfwasser.
2	Geschützt gegen feste Fremdkörper mit Durchmesser ab 12,5 mm.	Schutz gegen fallendes Tropfwasser, wenn das Gehäuse bis zu 15° geneigt ist.
3	Geschützt gegen feste Fremdkörper mit Durchmesser ab 2,5 mm.	Schutz gegen fallendes Sprühwasser bis 60° gegen die Senkrechte.
4	Geschützt gegen feste Fremdkörper mit Durchmesser ab 1,0 mm.	Schutz gegen allseitiges Spritzwasser.
5	Geschützt gegen Staub in schädigender Menge.	Schutz gegen Strahlwasser (Düse) aus beliebigem Winkel.
6	Staubdicht.	Schutz gegen starkes Strahlwasser.
7	-	Schutz gegen zeitweiliges Untertauchen.
8	-	Schutz gegen dauerndes Untertauchen.
9K	-	Schutz gegen Wasser bei Hochdruck-/Dampfstrahlreinigung, spezifisch für Straßenfahrzeuge.
